

# The International Year of Light and Light-based Technologies

## 2015

Health   Communications   Economy   Environment   Social

# Background

With endorsement by the UNESCO Executive Board in November 2012, leading scientists were invited to present the case for an International Year of Light at the United Nations General Assembly in May 2013.

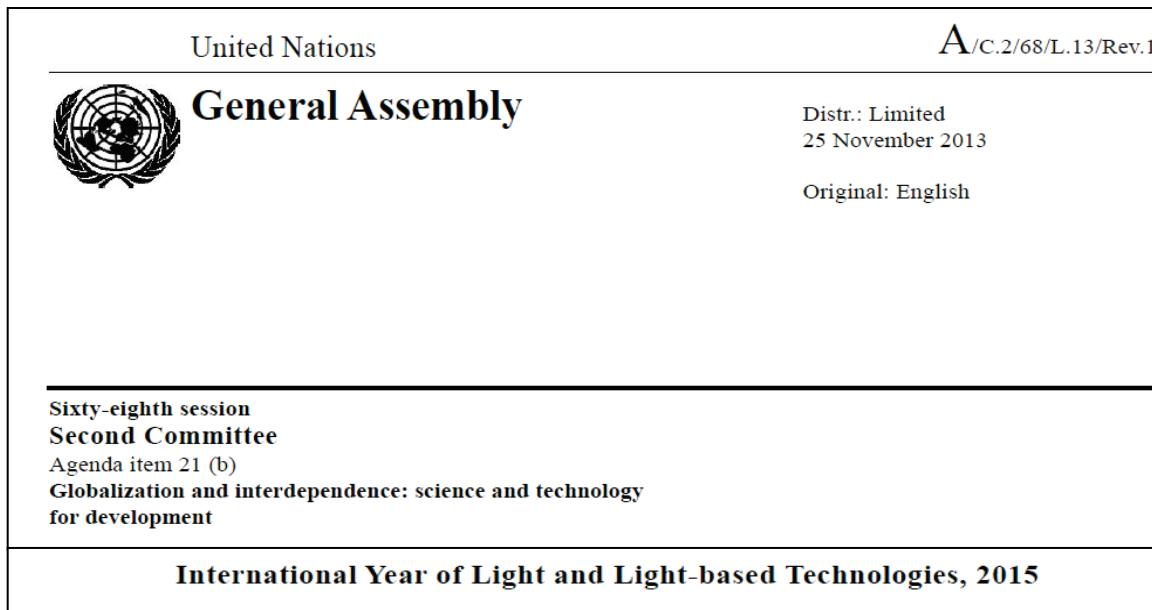

A resolution has now been adopted at the United Nations General Assembly, and so 2015 will be the International Year of Light

# International Year of Light

The resolution was sponsored by more countries than any other science-based international year, and adopted on 3 December 2013

Argentina, Australia, Azerbaijan, Bosnia and Herzegovina, Chile, China, Colombia, Cuba, Dominican Republic, Ecuador, France, Ghana, Guinea, Haiti, Honduras, Israel, Italy, Japan, Mauritius, Mexico, Montenegro, Morocco, Nepal, New Zealand, Nicaragua, Palau, Republic of Korea, Russian Federation, Somalia, Spain, Sri Lanka, Tunisia, Turkey, Ukraine and United States of America

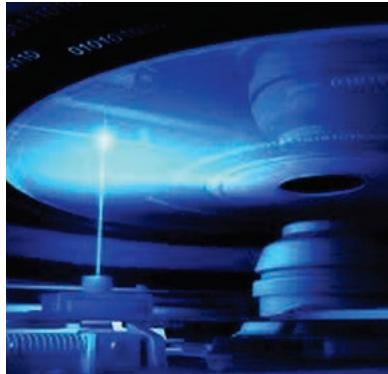

# Overview and Aims

The International Year of Light is a cross-disciplinary educational and outreach project with more than 100 partners from over 85 countries

## Why Light?

The science and applications of light creates revolutionary - but often unseen - technologies that directly **improve quality of life** worldwide

### Health   Communications   Economy   Environment   Social

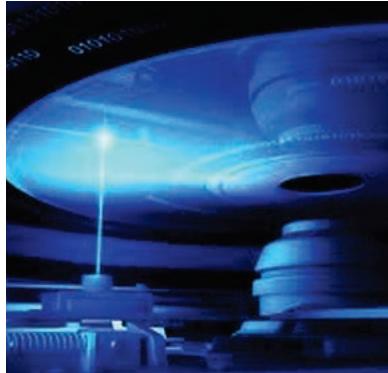

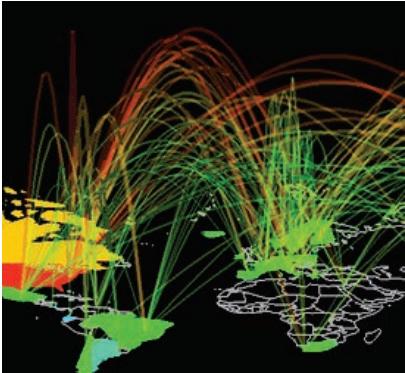

# Overview and Aims

The International Year of Light is a cross-disciplinary educational and outreach project with more than 100 partners from over 85 countries

## Why Light?

Light-based technology is a major **economic driver** with potential to revolutionize the 21<sup>st</sup> century [as electronics did in the 20<sup>th</sup> century]

### Health   Communications   Economy   Environment   Social

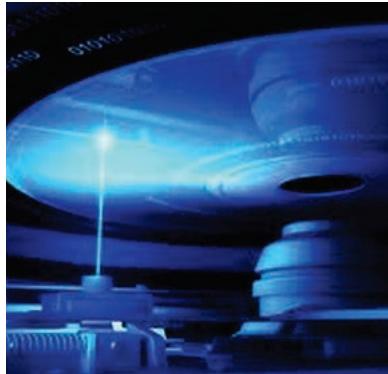

# Overview and Aims

The International Year of Light is a cross-disciplinary educational and outreach project with more than 100 partners from over 85 countries

## Why Light?

The **Proclamation of an International Year of Light** will ensure the importance of light and its potential applications are appreciated by all

### Health   Communications   Economy   Environment   Social

# 100+ partners from 85 countries

# Opportunity for the future

The Proclamation of an International Year of Light is a tremendous opportunity to coordinate international activities and promote new initiatives to support the revolutionary potential of light technologies

## How?

Clear themes, cross-cutting activities, communication with the public

# Light has an inclusive identity for all

INTERNATIONAL  
YEAR OF LIGHT  
2015

Origin of Life  
Sustainability  
Culture

Art and Culture  
Education

# 2015 celebrates major anniversaries

1015 Ibn Al Haythem *Book of Optics*

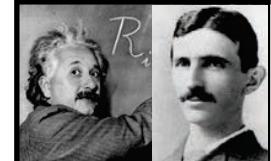

1815 Fresnel and the wave nature of light

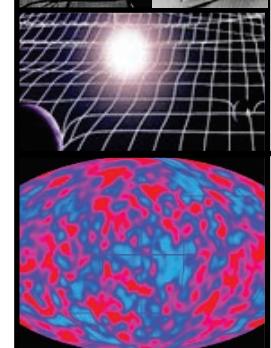

1865 Maxwell and electromagnetic waves

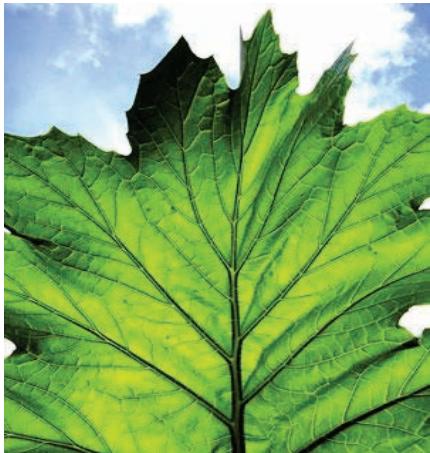

1915 General relativity – light in space and time

1965 Cosmic microwave background, Charles Kao and optical fibre technology

# Activities are very broad - science...

Origin of Life

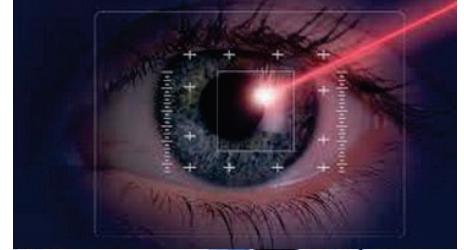

Healthcare

Communications & GPS

Optical Instruments

The Universe

# ... and more than science

Cultural Heritage

Education for All

Nature

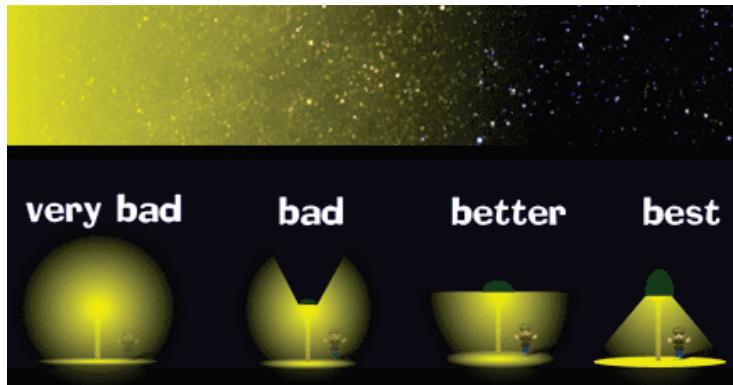

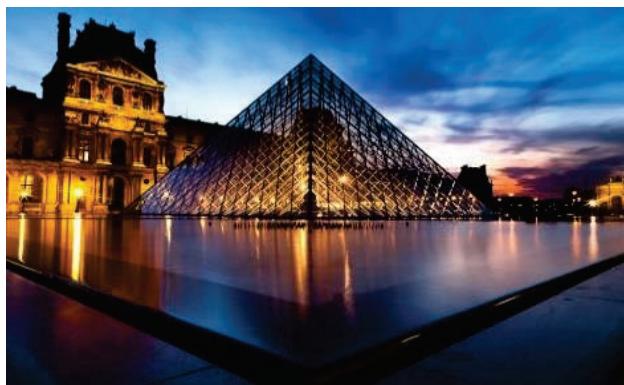

Light and Art

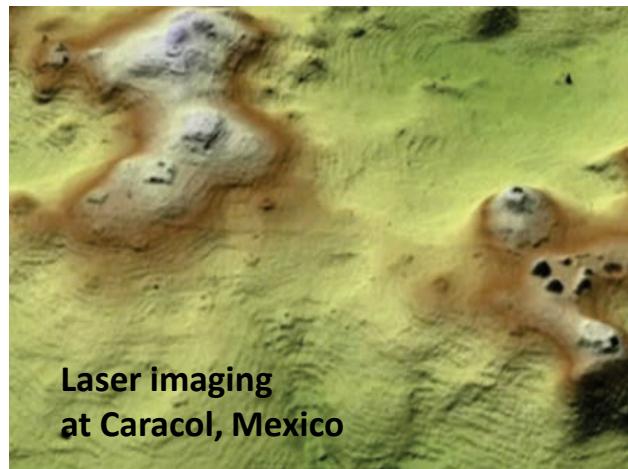

# Cultural Heritage

Smart lighting can both highlight culture and reduce light pollution

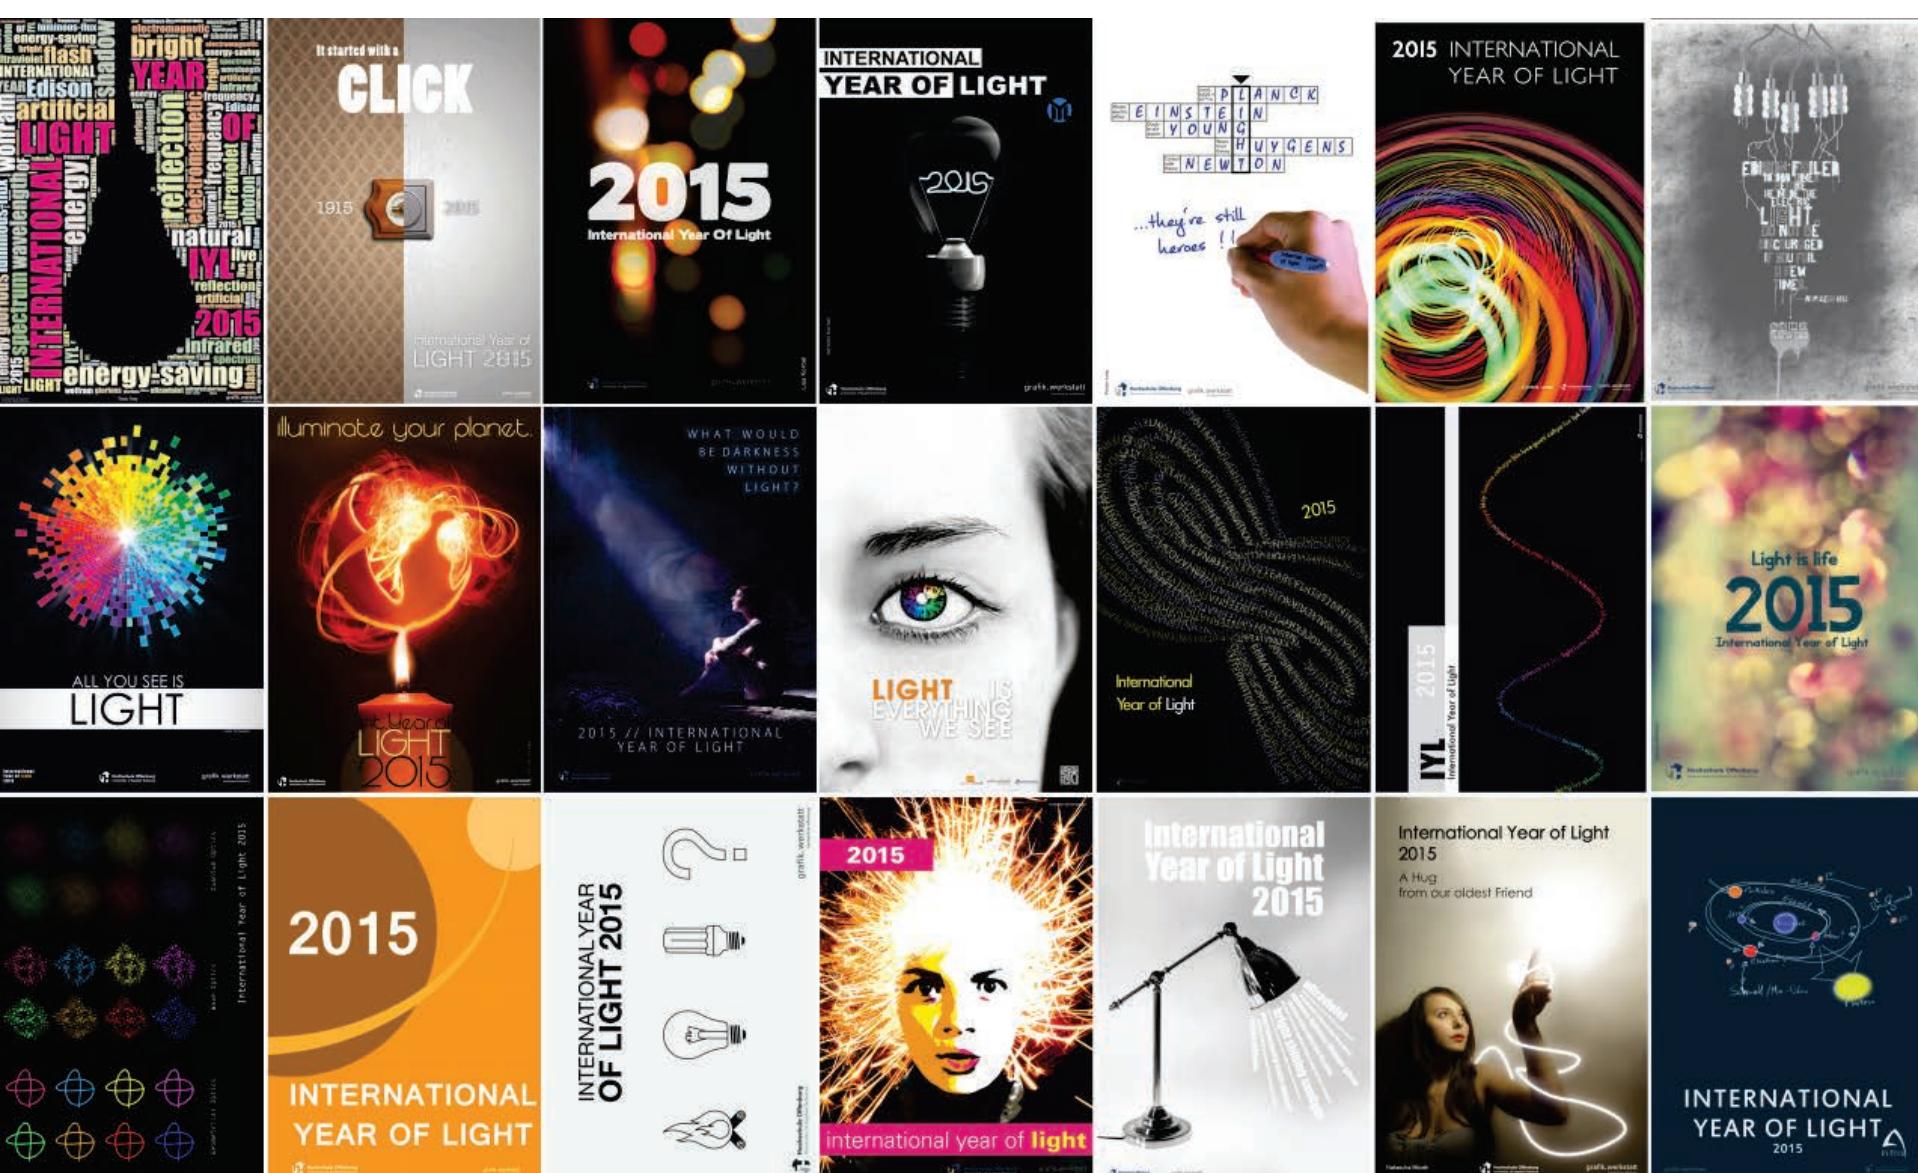

Optical technologies give new impetus - from art to archaeology

Laser imaging  
at Caracol, Mexico

# Natural connections with art

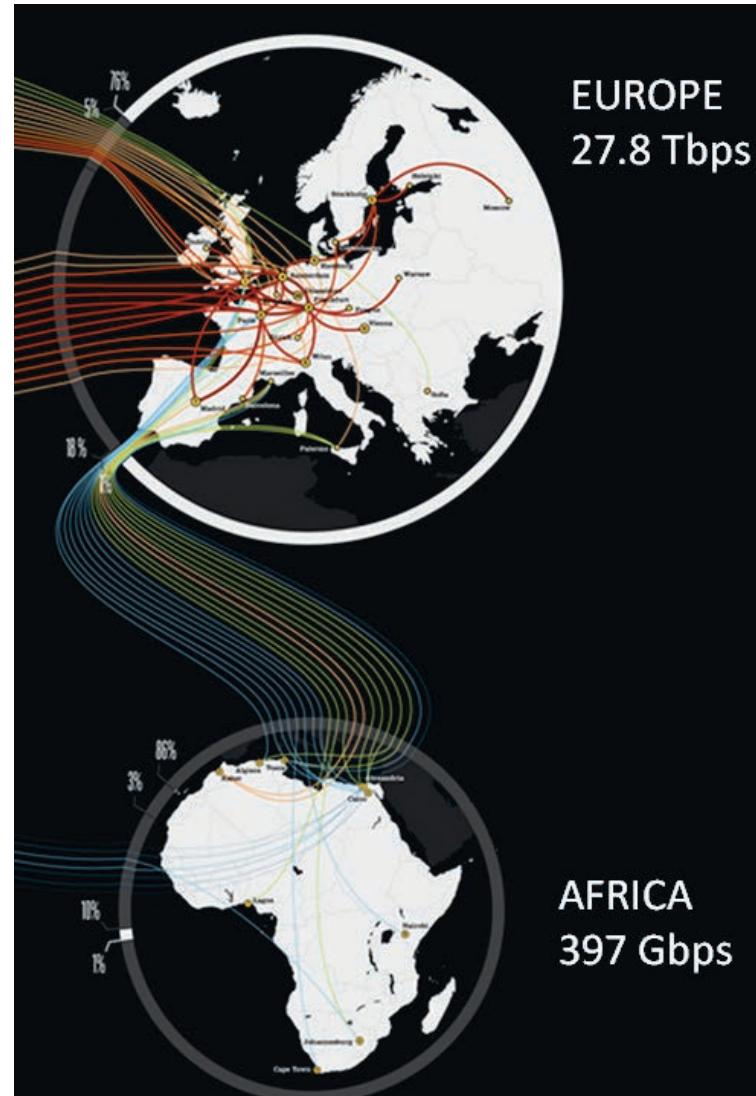

# Highlighting impact on development

Light technology is at the heart of the Internet and communications

Raising awareness of disparities in information access is essential for future development of society

# Conclusions

---

## Why light and optics?

Light is central to science, technology, art and culture

Light can promote education at all levels

Light technology drives development

## Why an International Year of Light?

The importance of light technology needs to be appreciated

International coordination will create durable programmes

We aim to inspire a new generation to study science through light

**The 21<sup>st</sup> century is the Century of Light**
